

Post-N-Beam System

A more secure and durable security barricade solution.

Featured Product: Model BEAM

A more secure and structural barrier for queue lines.

The 1" x 2" beams are made from heavy gauge aluminum to provide a solid and sturdy barrier. They seamlessly integrate with any Retractable-Belt® post, allowing them to be purchased as an add-on or as a complete system with four-way receiving posts.

Portable post bases are now available with suction cups to keep your Post-N-Beam in place. For a more permanent option, select from our Mini Socket, Magnetic, Fixed or Removable mounting options.

Universal End Block

- ▶ Attaches to any new or existing Retractable-Belt® post
- ▶ Allows approximately 15 degrees of swing in both directions
- ▶ Locking EZ Off End Block available (SUB-EZLOCK)

Specs

- ▶ 1" x 2" rectangular beam with radius edges

Model #	Beam Length	Center To Center
