

Retracta-Belt® Value Series

10' Retracta-Belt® Post

A domestically manufactured stanchion at import prices.

Featured Product: Model VS301

The Value Series is our response to the low cost imported stanchions.

This Series contains many of the same features as the tried and true Model 300 Retract-Belt®, which has become an industry standard for price, quality and dependability. The new 10' belt length gives you the best value for your dollar; less posts to buy, less posts to store.

This post is a high quality stanchion sold "flat packed" in sets of 2. Simply place the baseweight on the floor and hand screw in the post. High manufacturing quantities, innovative packaging and simplified options have driven down the cost, but not the quality.

No Tools - Easy Assembly

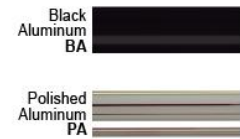

Innovative Packaging - Flat Packed

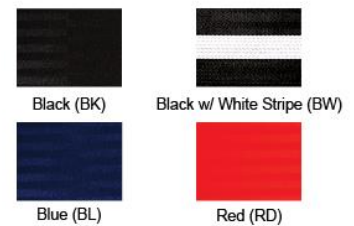

- ▶ **Knocked-Down shipping:** saves over 50% on shipping
- ▶ No UPS box charge
- ▶ 2 posts ship in one box

Finishes

Belt Colors

Features

- ▶ **10' belt:** 43% longer than comparably priced competitors posts - less posts to buy, ship & store
- ▶ **Patent pending braking system:** creates the **safest** post on the market
- ▶ **High impact polycarbonate material:** greatly increases durability
- ▶ **Black ABS scuff proof base cover:** on both finishes
- ▶ **Universal belt clip & end:** allows integration with many other manufacturers' units
- ▶ **Built-in sign attachment:** no costly adapters
- ▶ **Heavy cast iron baseweight:** with rubber floor protectors
