MajesticLine

Tame Your Line!

MajesticLine stanchions by Line-King are the most affordable way to tame your line with a touch of elegance and class. We've limited the finishes and rope colors and prebuilt in large quantities to save time and money. Those savings are then passed on to you to offer a quality product at an affordable price.

The savings don't stop there. Each package includes two posts and one rope shipped knocked down so that you save even more on shipping costs. The assembly is easy too. Simply place the base weight on the floor and screw in the post. No tools required, assembles in seconds.

These posts are in stock and ready to ship the same day.

Same Day Shipping
